Dear Sir:

This is in response to the Office Action dated August 20, 2002. Please amend the application as follows:

IN THE SPECIFICATION:

Please amend the paragraph beginning on page 1, line 7 as follows:

02/06/2003 AJHMS01 00000003 501759 0906902

01 FC:1202 72:00 CM

Vehicle rear vision systems are known which have at least one rearview mirror unit provided with an electrochromic mirror, control device and a vehicle power supply device, the control device being connected for its power supply with the vehicle power supply device and with the electrochromic mirror in order to control the reflection properties of the mirror in response to a control voltage. Triggering of the electrochromic mirror in relation to its
